

Estimation of the value of the contract - Development of telemedicine models

The Ministry of Health, as part of the market research and in order to estimate the value of the contract invites to submit estimated tenders in the procedure for the development of telemedicine models in the areas of: cardiology, geriatrics, psychiatry, obstetrics, diabetes, palliative care and chronic diseases.

The public order will be implemented under the project titled: "Tackling social inequalities in health with the use of e-health and telemedicine solutions", co-financed by the Norwegian Grants and the state budget.
