

Sustainability and Dissemination of Results

What is the message - lessons learned

Who are the targets groups – relevant for whom

Which are the channels – to spread the good news

Opportunities and responsibilities after project termination

Not description of project activities and how results were obtained

Observations

- Dissemination plan – present or absent in the project description
- Sustainability
 - Based on political decision for further implementation
 - Based on system integration
 - Priorities, routines and working methods
 - Legal – rules and regulations
 - Economic incentives – introduced into ordinary budget processes
 - Normative – professional advice
 - New technologies implemented
 - Dedication – high touch approach
 - New network established
